

a<sup>2</sup>

3. (Amended) The golf club head according to claim 1, wherein the roll radius of said upper portion is between 152 mm and 305 mm.

7. (New) The golf club head according to claim 1, wherein the upper portion has a roll radius of 254 mm and the lower portion has a roll radius of 356 mm.

8. (New) The golf club head according to claim 1, wherein the upper portion has a roll radius of 305 mm and the lower portion has a roll radius of 406 mm.

9. (New) The golf club head according to claim 1, wherein the upper portion has a roll radius of 305 mm and the lower portion has a roll radius of 310 mm.

10. (New) The golf club head according to claim 1, wherein the upper portion has a roll radius of 260 mm and the lower portion has a roll radius of 310 mm.

11. (New) The golf club head according to claim 1, wherein the upper portion has a roll radius of 152 mm and the lower portion has a roll radius of 310 mm.

a<sup>3</sup>

#### REMARKS

The cancellation of claims 2 and 5 leaves claims 1, 3, 4, 6 and new claims 7-11 remaining in this application.

In the Office Action, the Examiner rejected claims 1-6 under 35 U.S.C. § 103(a) as being unpatentable over Werner et al. (U.S. Patent No. 6,139,445) in view of Masghati et al. (U.S. Patent NO. 4, 471,961). To the extent that the rejection is deemed applicable to claims 1, 3, 4, 6, as amended herein and to new claims 7-11, it is respectfully traversed.

Claim 1 now recites a golf club head comprising a face surface having upper and lower portions separated by a boundary line across the position of a sweet spot on the face surface, the upper portion having a roll radius of 305 mm or less, and the lower portion having a roll radius of between 310 mm and 406 mm. The claim is clearly
